

African Touch Stone Ltd
Industrial Expertise

NewAge Maintenance

INDUSTRIAL ENGINEERING COMPANY

- ✓ Offshore and onshore industrial maintenance
- ✓ Industrial Instrumentation and Regulation
- ✓ Industrial Piping Expertise
- ✓ New commissioning and technical advice
- ✓ Boiler room maintenance and industrial chimney sweeping
- ✓ Rotating machines
- ✓ Project management
- ✓ Trainings

PRESENTATION

Who are we

African Touch Stone Limited is a company which aims to prosper and diversify into activities mainly involving trades linked to the **Design Office, Electromechanics, Industrial Piping, Boilermaking and rotating machines**. It is based in Douala, the economic capital of Cameroon.

Because the trades involved are tough and demanding, we first based our development on people. We intend to develop our reputation thanks to available, experienced and professional staff who sometimes allow themselves to push their limits beyond the limits of the manufacturer.

Indeed, **African Touch Stone Limited** has adopted a policy of representing builders who appreciated the method and approach of its men.

Because our business is above all technical know-how and constant adaptation to new technologies, **African Touch Stone Limited** can, thanks to a flexible structure, offer an efficient and safe service.

Thus, we have focused on developing our activities through four distinct departments, **MAINTENANCE OF ROTARY**

MACHINES, ELECTROMECHANICAL MAINTENANCE SUSTAINABLE MANAGEMENT OF PROJECTS IN THE ENERGY SECTOR, INDUSTRIAL PIPING EXPERTISE, METALLIC CONSTRUCTION, TRADING & SUPPLY OF INDUSTRIAL EQUIPMENT in continuous interaction for a complete service.

Technical Partners

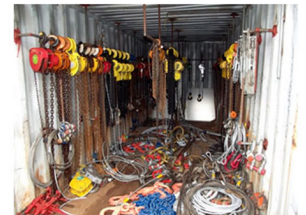

OUR RESOURCES

- ▶ Design and Methods Office.
- ▶ Mechanical tool box.
- ▶ Electrician toolbox.
- ▶ Welding tool box.
- ▶ Pipe fitter toolboxes.
- ▶ Boilermaker tool boxes.
- ▶ Instrument toolboxes.
- ▶ Complete vibration analysis kit.

Material resources

- ▶ Complete temperature analysis kit.
- ▶ Complete laser alignment kit.
- ▶ Laser level measurement kit.
- ▶ Intervention vehicle.
- ▶ Handling and lifting equipment.
- ▶ Welding stations.
- ▶ Generators...

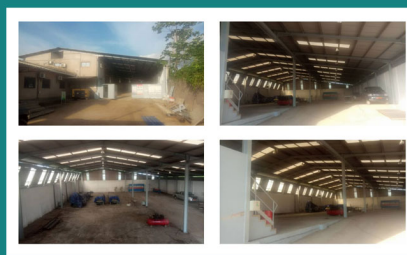

Human resources

- ▶ Electromechanical Engineers
- ▶ Electrical Engineers
- ▶ Maintenance Engineers
- ▶ Metal Structure Engineers
- ▶ Design Office Preparer Engineers
- ▶ Draftsmen Projectors
- ▶ Welding experts – Trainers

- ▶ Welding Experts
- ▶ Fitters – Mechanics
- ▶ Fitters – Scaffolders
- ▶ Logistics Mechanics
- ▶ Industrial Chimney Sweeping Experts
- ▶ Industrial Piping Experts

Equipped metal fabrication workshop

Workshop equipped for manufacturing sheet metal and profiles.

Infrastructures

African Touch Stone Ltd
Industrial Expertise

OUR EXPERTISE

OFFSHORE AND ONSHORE INDUSTRIAL MAINTENANCE

- Steam turbine maintenance (KKK, DRESSER RAND, FIVES, TURBODYNE, etc.).
- Maintenance of centrifugal separators and decanters.
- Maintenance of volumetric and centrifugal pumps.
- Maintenance of air/gas compressors.
- Maintenance of mechanical reducers.
- Repair and replacement of stainless steel and carbon steel piping.
- Supply of industrial parts.

INDUSTRIAL INSTRUMENTATION AND REGULATION

- Physical quantity measurement solutions and process studies
- Signal processing and measurement transmission
- Control valves and speed variators
- Control loops
- Supply of industrial parts

INDUSTRIAL PIPING EXPERTISE

- Design, manufacture, installation, and maintenance of industrial equipment.
- Shielded metal arc welding (SMAW MMAW process)
- Gas tungsten arc welding (GTAW-TIG process)
- Flux-cored arc welding (FCAW process)
- Welding training.

PROJECT MANAGEMENT

- Energy Processes
- New Projects (Hydrocarbons, Agri-Food, Hydraulics)

NEW COMMISSIONING AND TECHNICAL ADVICE

- Installation and commissioning of all types of rotating machinery.
- Advice on the operation and maintenance of machines.
- Installation and commissioning of hydraulic groups.
- Installation and commissioning of hydraulic cylinders.

BOILER ROOM MAINTENANCE AND INDUSTRIAL CHIMNEY SWEEPING

- Emissions adjustment and control
- Regulatory technical inspections
- Burner adjustment, combustion analysis
- Grate replacement in combustion chambers
- Refractory repairs, cleaning
- Instrumentation adjustment
- Thermal insulation of heating systems
- Retubing assistance
- Duct maintenance
- Chimney sweeping system maintenance
- Supply of industrial parts

ROTATING MACHINES

- Intervention on rotating machines
- Installation and commissioning
- Recommended spare parts and process modifications.
- Management of maintenance and spare parts supply contracts.
- Accidental revision, Limited review, General revision

TRAININGS

- Training in Q-HSE management systems

THEY TRUSTED US

Annual GEA centrifuge maintenance contract.

MEMBRE DU GROUPE HEINEKEN

Project management for the assembly and commissioning of a sorghum silo.

Installation of a hydraulic unit & installation of tilting grille cylinders / SAS – Installation of a carbon steel pipe line.

Installation of a hydraulic unit & replacement of cylinders/valves Valves / Segment of the RUZIZI II hydroelectric dam – Installation of stainless steel piping line.

Welding training, staff training on health and safety at work, first response team members, identification and analysis of OHS risks.

Manufacturing of a roller drive train with ejection system.

Expertise of a Turbo Alternator Group

Maintenance of GEA centrifugal separators

Maintenance of GEA centrifugal separators

Maintenance of GEA centrifugal separators

Maintenance of GEA centrifugal separators

Maintenance of diesel centrifugal separators

Maintenance of GEA centrifugal separators

Training of trainers in DRC and Burundi.

Maintenance of GEA centrifugal decanters

Expertise of 04 oil depots, Staff training on health and safety at work, first response team, identification and analysis of OHS risks

African Touch Stone Ltd
Industrial Expertise

Studies of gas distribution
pressure reduction stations.

Cathodic protection studies
on gas pipeline lines.

- Intervention on oil platform
(Industrial cleaning).
- Metalwork and piping
maintenance on oil platforms.

- Onshore modification of
two crude oil separators.
- Tank maintenance.
- Maintenance of pressure
vessels.

CAMEROON

- Revamping of a used oil treatment
unit.
- Commissioning of a Transtank
lubricant storage unit.
- Bitumen container maintenance.
- Bitumen plant maintenance
(boiler room/pump room).
- ECOLUB unit revamping.
- Maintenance of diesel fuel 4
treatment units (centrifugal
separators).
- Installation of oil pumps.
- Maintenance of bitumen pumps.

SOCIETE GABONAISE DE RAFFINAGE (SOGARA)

Expertise work on SIEMENS
gas turbines

EQUATORIAL GUINEA

- Expertise work on
electromechanical equipment
across all TEMGE storage facilities.
- Installation of cathodic protection
systems at the EKUKU depot.

REALISED PROJECTS

ASSEMBLY OF A HYDRAULIC SYSTEM FOR A LIME WORKSHOP (SENEGAL)

- Assembly of a hydraulic system & installation of cylinders for tilting gates / airlock
- Installation of a carbon steel piping line

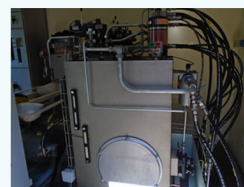

EXPERTISE OF OIL DEPOTS (BURUNDI)

ASSEMBLY AND COMMISSIONING OF A SORGHUM SILO (BURUNDI)

INSTALLATION AND COMMISSIONING OF A HYDRAULIC UNIT FOR A HYDROELECTRIC DAM (DRC)

- Installation of a hydraulic unit and replacement of valve cylinders Valves / Segment of the RUZIZI II hydroelectric dam
- Installation of stainless steel piping lines.

TRAINING OF TEACHERS AND MASTER CRAFTSMEN (DRC)

Trainers in domestic sanitary plumbing in Bukavu (DRC)

DESIGN, SUPPLY AND INSTALLATION OF A CONTROL CABINET FOR A DCI MOTOR-PUMP UNIT

Remote control
cabinet for DCI
motor-pump units.

DESIGN, SUPPLY AND INSTALLATION OF A REMOTE CONTROL CABINET FOR A DCI MOTOR-PUMP UNIT

Manifold, old and new
DCI motor pump
group controls.

COMMISSIONING OF A DCI MOTOR-PUMP UNIT

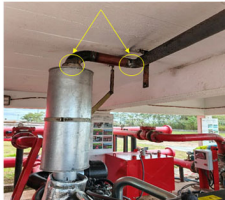

Removal of the old DCI
motor-pump unit.

Handling and installation
of the new DCI
motor-pump unit.

Modification of the
tank height of the new
DCI motor-pump unit.

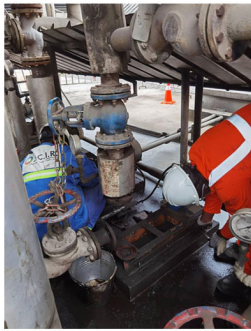

Modifications to the
intake/discharge
lines of the new
DCI motor-pump unit.

Gas exhaust connection
of the new
DCI motor-pump unit.

Installation, connection,
power-up, configuration
and commissioning of the
new DCI motor-pump unit.

Bitumen pumping
station maintenance

BTC Handling

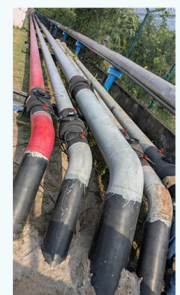

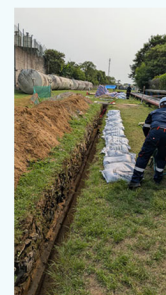

BTC Maintenance

BITU CONTAINER (BTC) MAINTENANCE AND BITUMEN PLANT MAINTENANCE

COMMISSIONING TRANSTANK LUBRICANTS

CATHODIC PROTECTION WORKS
